SCANDINAVIAN SOFA

Whispy White Linen Slipcover Instructions & Care

PARTS INCLUDED

#1. Back Cushion Cover – Qty. 3

#2. Seat Cushion Cover – Qty. 1

#3. Frame Slipcover – Qty. 1

ASSEMBLY TIPS & INSTRUCTIONS

1. In a clean and cleared area unwrap the slipcover.
2. Place the frame slipcover on first, before placing cushions on sofa frame. Make sure to attach the slipcover using the Velcro strips. You will need to adjust the Velcro, as you go, so that the slipcover fits the frame well, lays smoothly against the sofa frame, this will reduce the appearance of wrinkles. Using a tucking motion between the arm and back of sofa, apply pressure to the crease and moving your way down the arm toward the seat. Using the same method, tuck where seat and back meet and continue the motion moving forward from back to front of sofa. Make sure that you pull the 2 metal and elastic clips through the sewn slit holes while you are tucking the crease. These clips help to keep the seat cushion securely in place.
3. Then insert cushion inners into back and seat cushion cover and zip closed. The seat cushion has 2 metal and elastic attachments that easily clip into the clips located in the crease, where the seat and back meet on the sofa base. Once seat cushion is secured, then place back cushion on sofa.
4. Slipcover and cushion covers might have developed mirror wrinkles on the surface due to the wrapping/carton/transit. These marks are completely natural and will diminish in the first month of normal use. If you would like to achieve a more tailored look steaming is suggested. Use upholstery attachment for steamer or place t-shirt material between steamer and fabric to avoid damaging fabric or creating water spots.

CARE INSTRUCTIONS

Lightly dust and vacuum.

100% Whispy White Linen Slipcover is machine washable. Use gentle cycle with, cold water and similar colors, lay flat to dry. Do not use harsh or abrasive chemicals as this may damage the fabric.
